

EARTH CONTROL

PROTECTING YOU FROM THE SKIES SINCE 2025

Have you ever looked up to the clouds and wondered your place in the galaxy? Not just your place, but the place of those who surround you? Space is a vast sea, and the Earth is but a tiny iota, a drop in the water of this endless galaxy. If the Earth is one drop, then what is humanity? Well, I ask, why should they be anything but the tidal wave they truly should be? Why should we be scared of what could be out there, when we can willingly make our mark with pride? That is the philosophy of **Earth Control**, and it has been for the past seven years.

When the first ships left to scour our universe, Earth Control was on the ground, with the people, and watched in awe. Yet, what we now provide is nothing short of a revolution in the space age. We have been policing the skies for years now, protecting our race from each other, and you at home from the scourge of the skies. Earth Control is at the forefront of the technological advancements needed to protect us from what could be out there, and we are doing this with your help. [See More](#)

EARTH CONTROL SCIENTIST MARVEL AT FASTER THAN LIGHT TRAVEL ON ANNIVERSARY OF DISCOVERY

Earth Control scientists have marvelled at the impact **Faster Than Light** travel has had on the human frontier. The celebration comes on the one year anniversary of the discovery, led by **Doctor Hugh Davenport**, which allows ships to travel beyond light speed, making space travel not only quick, but also wholly luxurious. **Faster Than Light** travel is now a feature in almost every **Earth Control** vessel, and has revolutionised humanities relationship with space, and has allowed our reach into the stars to extend further. EYES TO THE SKY: PLANS TO EXPAND THE FRONTIER TO SATURN RECEIVE SIGNIFICANT BOOST

The long standing plans to increase the size of the frontier to Saturn today received a huge boost. It was long since thought that human life around Saturn was impossible, yet not too long ago it was also thought human travel through space was impossible too. In a proud display, the science teams united together with the engineers to create a way to sustain human life amongst the beautiful rings of Saturn.

As this is reported, colony ships are being established and a crack combination of engineers, scientists and the bravest of Rangers are combining to make Saturn another viable place for study, and another foothold for humanity in the endless reaches of space. [See More](#)

EARTH CONTROL RANGERS

Whether you be in the skies above Earth or as far as Jupiter or Venus, if there is a complication the Earth Control Rangers will be on hand no matter the time or issue. The hand of Earth Control the Rangers are the toughest of the tough and willing to aid in any matter. Their main goals include; Keeping the peace amongst the stars, aiding humanity in any time of need and finding any and all useful technologies that may aid in Earths survival amongst the stars.

Other priorities include supplying our outer bases with whatever they require, flying surveillance for human kind, and staying at home with the civilians, watching the skies. Not all Rangers can fight on the frontline, but all rangers are an important cog in the overall machine.

Should you believe you have what it takes to be a ranger, then we are waiting for you with open arms and a hero's welcome. Should you believe you belong here, then you are a vital cog needed to keep the days bright, and the Earth safe. [See More](#)
